### Line Elevators' Exhibit

The North-West Line Elevators Association exhibit, now regarded as an institution at "B" class fairs, will be covering the circuit again this season. "A" class exhibitions at Brandon, Calgary, and possibly Regina, will also be included.

The central feature of this year's display will illustrate, by mechanical devices, the problem of controlling wind and water erosion of soil. Artificial dust and rain storms will illustrate the damage to soils from these causes. Adjacent to the damaged fields will be contrasting scenes showing the results obtained when control methods are applied. This portion of the exhibit will occupy the entire back section. On one end will be displays featuring production factors to include information on weeds, insects, plant diseases, and fertilizers. The other end will contain exhibits illustrating the production of grass and legume crops, the problem of grain mites in farm granaries, and the grading of grain.

Talking moving pictures will be shown in the exhibit as an added attraction.

This will be the fourth year in succession for The North-West Line Elevators Association exhibit to be shown at "B" class exhibitions. The purpose of the exhibit this year is identical with that of former years. That is, to present something which it is hoped will be both informative and entertaining to farmers and their families spending a holiday at the fair. You are cordially invited to visit our exhibit.

## Canada's Wartime Wages Policy As Embodied in P.C. 7440

Canada's wartime wages policy as an integral part of the economic control in the national war effort has been somewhat misinterpreted.

The Order in Council (P. C. 7440) prescribes for industries covered by the Industrial Disputes Investigation Act and recommends for all other industries a wartime wages policy. It contains two main provisions—(a) Except in certain special circumstances, the highest wage rates established between 1926 and December 16, 1940, are to be regarded as fair and reasonable; they may be restored, if necessary, and maintained but not increased. (b) Such wage rates may be supplemented by a separate cost of living bonus usually of \$1.25 per week for each rise of 5 per cent in the cost of living in order to safeguard the workers from increases in the cost of basic necessities of life.

## "That Hamilton Woman" Went Big

The Elgin Theatre at Ottawa played this picture for 3 weeks, read on—"That Hamilton Woman": Vivian Leigh, Laurence Olivier—Give us more like this one and there will never be a depression. Played 3 weeks and broke house records. Did not hear one bad comment. Olivier and Leigh certainly gave a swell performance. Should win Academy Award. Prime Minister King attended and said he would not miss this picture for any money. He liked it immensely. Played April 24-May 14.—Robert Berezin, Elgin Theatre, Ottawa, Ontario, Can.

## 'JOCK'S WAGGIN' TONGUE

Vol. 5 Thur., July 10 No. 27

Jock McIntyre, Editor

Recent rains over the district have made things look very good. Rain is needed all south of town below the Fireguard road. Jim Bowman, Bill Christensen, Fred Porter, R. Schutz and that portion of the district needing it particularly.

If you require hail protection let us know as we are the only representatives in Champion of Alberta Hail Board.

There is no use trying to tell who were Stampede parade visitors this week but Oscar Sletto, Alberta Orcutt, Ed. Coe and Dick Howe were about all who were home west of town on Monday.

In the manufacture of Vello that good casein cold water paint the highest quality of paint pigments are used, while in Kalsomine is generally colored whitening and earth or lake colors. The high quality of pigments used make it light proof, fade proof, lime proof and impart exceptional covering qualities.

Hugo Geschwendt and family are on a trip to Vancouver by way of the Big Bend Highway.

Would you be interested in a good reconditioned Mc-Drg. tractor? We have three in this class as well as one 22x36 to be sold as is and they are all priced to sell.

The Carmangay stampede is now history but there seems to be some small matters yet to be settled as some of the local boys will agree.

Hostess trays are the latest thing and they do solve the problem for your house party. They are reasonable and come in several handy sizes too.

"The girl with the striking pins bowls men over" as does our used car values.

Coleman hot plates and camp stoves are definitely tops in their field and they will never become orphans. Our stock is complete so six times we have told you "Give the little woman a break."

### PAYROLL DEDUCTIONS IN FORCE

The first day of July will not only be remembered this year as Dominion Day by employers and employees, but the day when increased deductions in pay envelopes went into effect, and Unemployment Insurance commenced.

On the first July pay-day, employees within the insurable bracket and engaged in insurable occupations will, if their employers have registered and made preparation as the law requires, find their pay envelopes minus their first contribution to the unemployment insurance fund, which the employers will have to supple-

ment. The deductions vary with the wages. An employee earning \$5.40 to \$7.40 per week contributes 12 cents, and the employer 21 cents for that employee. The employer's contribution is larger than the employee's up to the point where the worker gets \$20 to \$25.00 per week, when the employer only provides 27 cents to the employee's 39 cents. From \$26 up, the employee pays 36 cents, while the employer's contribution remains at 27 cents. These examples give some idea of the general trend. As no benefits are payable to workers earnings less than 90 cents per day, or while under 16 years of age, they do not contribute to the insurance fund, but the employer must pay 27 cents per week for each of them to make them eligible for benefits later.

Many employers do not seem to understand that unemployment insurance in the classes

covered by the act is compulsory. They must register their employees and assign them insurance books, which, however, the employer retains and keeps entered up as long as the worker is on the payroll. The employee has the right to examine his book twice a month. The benefits payable under the new act are, of course, of great interest to the insured, but the immediate task is to get all eligible employees registered, and it is to be feared that many employers have failed to grasp their responsibility in this respect.

Once again the Directors of the Calgary Stampede to be congratulated on a fine show.
